INTRODUCTION

Explore the world with words!
what3words is a really simple way to find and share locations using a unique 3 word address.

This treasure hunt uses the free **what3words** app or website to find a location from a 3 word clue.

Each location is associated with a well-known British author.

The clues are designed for children from 7+ to solve alone, so younger kids may need a helping hand.

We hope you enjoy completing the hunt with your children!
